

What is it?

On March 28th, the Epicenter's ecosystem, ECR token, goes live. Existing Epic Cash holders are the beneficiaries of this. For every 1 EPIC you hold as of Feb 28th you can claim 1 free ECR token.

What do I have to do?

Coins on Vitex exchange or wallet:

Nothing, your ECR tokens will be automatically credited

Coins on Citex:

Withdraw if you can. You will not receive anything for coins held on Citex

Coins in local wallet (CLI / GUI v1 & v2):

After March 28th, to receive tokens you will enter your ETH address, a Telegram handle (for receipt only - no marketing) and click a "claim" button. Tokens will be sent to your ETH address and a receipt to your Telegram
